- 2004 - 1st place in the Essex Web Design category. (STEP)
- 2004 - Most Enterprising Student in Essex Runner-up. (STEP)

INTERESTS:

My interest in ICT and Business Studies is apparent outside of school hours when I nurture a part-time ICT consultancy business. This business has been a hobby for many years and I find that it is a valuable tool in keeping connected with the ICT industry and the world of business.

In 2008, I set up a new Duke of Edinburgh's Award group at Holywells High School and so I spend a lot of time after school organising meetings and expeditions. As a part of the Volunteering section of the award, I teach pupils the St John Ambulance Young First Aider qualification. When I have some free time, I also like to do DIY and gardening.
